VYOM SMART CLASSES FOUNDATION

Major Achievements

When India is willing to launch the om2m and interoperable integrated services in India. Vyom has started the projects in 2017 in the field of m2m, AI, IoT and interoperable services to make life easy in rural areas in the field of Health, Skill Development, Entrepreneurship Training Programs. Vyom has launched the India's first integrated center where everyone can use the services. Vyom Group has filled the GAP of Digital technology and the rural areas by providing IoT, AI and m2m enabled services with the help of Aganwadi workers. We have given primary health insurance to all village beneficiaries. We have provided several trainings to Aganwadi Workers, public Health Post workers and provided them best IoMT and WoMT services to upgrade them Smart Aganwadi Kendra and Public Health posts. But when Vyom has done a survey in Indian villages nobody knows the schemes of MSME, NSDC and Placement cells to get Jobs. Vyom has started his own Smart Integrated centers as a pilot to deliver health with Aganwadi workers , Skill Development with colleges and schools , CSC schemes and Placement cell under one roof.

Vyom launched Swasth Bharat Surkshit Bharat campaign 2017

All services are free for Ayushman and BPL card holders from 2017 it's a joint venture to make Ayushman Bharat scheme with Primary health care to all villagers with Aganwadi workers absolutely free.

2.1 India's first integrated smart centers in rural areas of UP, Bihar and Maharashtra

Smart Integrated centers and services was well received by the Aganwadi workers, Indian American Foundation, DIC, MSME, NSDC, ESSCI, BSE, Zone startup, UP IT Policy, STPI, MedTech, Ayushman Bharat and National & International MNC. The first major smart integrated services involved by providing touchless health system to all in Corona period in the world. When lock down is rolled out in PAN India. We have continued our all services and provided several Health, Skill, and Job Fairs to make tier2 and rural youth sustainable and employable. We have launched a e BPO scheme in India with Universities and Colleges in the period of lockdown to provide a chance of earn while learn and become an entrepreneur in lock down period. India's only Smart integrated centers have been working to contribute to self-help groups, entrepreneurship training, skill development and Healthcare under one roof by integrating all policies and services of private and government sector.
